

Report to the Association
Language Church Development Department
Deris Coto, Director
Language Division
Florida Baptist Convention.
2010-2011

Our Mission is to assist churches and associations in planning and administering a comprehensive program of church development for language churches that will result in healthy cooperative language congregations in the Florida Baptist Convention.

I thank God for the great privilege of serving alongside you and your churches. I thank you for your spirit of teamwork, partnership, efforts and desire to see each language church be developed to its own potential, placed by God, and to be healthy.

We will continue to make our focal point to foster healthy churches and to innovate them through Equipping, Informing and Inspiring Language Churches, Ministries and Missions of the Florida Baptist Convention; to provide, initiate, coordinate and help build a high level of awareness and resources for wise strategy (Church Development), superior leadership (Leadership Development) and exceptional levels of teamwork (Team Development).

During the past twelve months through Consulting, Coaching, Conferences, Retreats and Camps more than 5,454 people were trained and more than 415 total churches participated in church development experiences that included:

- Sunday School
- Discipleship Training
- Family Life
- Church Administration
- Church Music
- Youth
- Single Adults
- Senior Adults
- Deaf Ministries
- Leadership Conferences.

We will continue with our goals of planning and conducting special studies, surveys and research projects to identify the present status and future needs of church development among language churches of the Florida Baptist Convention.
